Experience the MEC Difference

MEC Academy is dedicated to an outstanding learning experience. A state-of-the-art campus, qualified instructors and Philippine-style 1:1 intensive classes — a uniquely differentiated English education you will only find at MEC.

01 1:1 Individual Intensive Classes

Real speaking practice one-on-one with an instructor — not in a group. Strengths and weaknesses are assessed, a personalised study plan is created, and every lesson ends with individual feedback. 25–40 periods per week by course type.

02 A Gateway to the Global Hub

Right next to Singapore — weekend trips to Singapore and nearby islands are easy, so study and cultural experience grow together.

03 Small Groups & Holistic Education

Group classes are capped at 3–10 students per instructor. A Student-Centered environment plus the Renaissance Reading Programme builds reading habits and critical thinking in balance.

University of Reading Malaysia · EduCity Campus

ACCREDITATIONS & PARTNERSHIPS

Accredited by the Ministry of Education Malaysia · Kangwon National University certified · Official IELTS Test Centre · Official partner of PARAGON International School

A systematic method, prepared instructors, outstanding facilities — **the MEC difference is proven inside the classroom.**

Pick the Campus That Fits Your Purpose

The only difference is environment and lifestyle — curriculum, coursebooks, level system and teaching method are identical on both campuses.

Why Johor Bahru, Malaysia

A step up in environment and safety at a cost similar to a Philippines stay — 25 minutes from Singapore, a university-campus setting, the proven security and duty-free benefits of a master-planned city, and a real English environment with multinational classmates. English is used everywhere in daily life, so exposure continues outside the classroom.

Learn in Group, Make It Yours in 1:1

Every MEC course combines 1:1 and group classes. This combination is MEC's core differentiator.

GROUP CLASS · 3–10 STUDENTS

Group Class — Real Interaction

Practise real interaction and speaking with peers at your level. Groups are capped at 3–10 per instructor, so no one can hide at the back.

1 ON 1 CLASS · SOLO

1:1 Class — Personalised Correction

Weaknesses are targeted and pace is set to the student. Expressions learned in group are corrected and internalised in 1:1 — this junction is what actually unlocks speaking.

- 01 **The junction effect** — expressions from group class are reused and corrected in 1:1 the same day, so what you learn becomes yours that day.
- 02 **Student-centered method** — living English through active conversation, beyond the textbook.
- 03 **Native + local teacher mix** — varied accents, cultural perspectives and language expertise together.

Student-centered classroom — speaking volume drives results

Learn in group, digest in 1:1 — this junction is where speaking opens up.

Scale Intensity by Adding 1:1 Periods

Four class types — all share 4 group periods; the number of 1:1 periods sets the intensity.

BASIC

Standard

Group **4** + 1:1 **1**

The standard mix for first-time learners — settle into the group rhythm and build base speaking volume.

PLUS

Boosted

Group **4** + 1:1 **2**

A boosted mix for more speaking — two daily correction sessions just for you.

INTENSIVE I

Intensive

Group **4** + 1:1 **3**

For learners who need results fast — nearly half the day is 1:1.

INTENSIVE II

Maximum

Group **4** + 1:1 **4**

The most 1:1, the fastest change — group and 1:1 balance across 8 daily periods.

More 1:1 means more personalised intensity. The clearer your goal or the shorter your window, the more we recommend Intensive. Every type keeps the full 4 group periods of interaction.

The Forest City campus **runs Plus to Intensive II, with no Basic.**

Dedicated 1:1 rooms — 45-minute periods

All Four Skills Assessed for Accurate Placement

Before entry, the Oxford Online Placement Test (OOPT) assesses everything from grammar and vocabulary to reading, listening, writing and speaking. Levels run from Pre A1 to C2.

01 Adaptive — difficulty adjusts automatically

An adaptive test where question difficulty follows your answers — real ability shows through, not lucky guessing.

02 Data-driven CEFR placement — from day one

Placement is set to CEFR level from the result data. Because the test is done before departure, classes start on your first day.

03 Progress managed in 4-week cycles — reports shared

Progress is managed in 4-week cycles and assessment reports go to parents and students. Level gains are confirmed with data.

General English · Fluency & Confidence

A comprehensive speaking course designed for adults to use English with confidence in daily life and at work.

Train expressions used immediately in daily, business and travel settings.

Group + 1:1 combined

The environment was completely different from studying in the Philippines. Being inside a university campus changes your mindset from day one. My speaking improved incredibly fast thanks to the 1:1 classes — I couldn't believe how much I changed in just 8 weeks.

It was my first time abroad without my parents, but the staff were so kind that my anxiety disappeared quickly. Daily 1:1 classes carefully fixed my weak points — I couldn't believe how much I could say after just 4 weeks. The reading programme was really fun too.

I came aiming for IELTS 6.5 and finished with 7.0. My teacher walked me through essay structure step by step for Writing, my weakest area, and monthly mocks made progress visible. Weekend trips to Singapore were a big plus too.
